# BACHELOR PROGRAMS

Alte University unites 5 schools: Business School, International School of Medicine, IT School, School of Law, and School of Humanities and Social Sciences. The university currently offers 12 academic programs, both undergraduate and graduate.

**The School of Business integrates Business Administration and Tourism and Hospitality Management bachelor's programs.**

The purpose of the Bachelor of Business Administration program is to provide the student with the knowledge and skills needed for entrepreneurship, leadership, business administration, strategy development, marketing, finance, etc, and to prepare globally competitive bachelors with a constantly evolving creative mindset and charge.

The Bachelor of Tourism and Hospitality Management undergraduate program focuses on training globally competitive and highly qualified professionals (bachelors) in the tourism industry in both the local and international labor markets, who will have the necessary knowledge, practical skills, and competencies necessary for successful activities in the field of tourism, as a result of which students will be able to introduce innovations in the field of tourism and promote its development in the country.

**Bachelor's programs in business and tourism offer:**

- the opportunity to study the specifics of entrepreneurship from the very first semester;
- the ability to generate ideas in the start-up garage and start their own business;
- Involvement in scientific research;
- workshops, thematic seminars, meetings with invited guests, etc;

**The School of Humanities and Social Sciences offers bachelor's education programs in the following areas: International Relations, Journalism, English Philology, and Psychology.**

Alte University's bachelor's program in International Relations is customized to the requirements of the international labor market and the best practices of the leading universities (London School of Economics and Political Science, and Princeton School of Public and International Affairs) with highly qualified academic and invited practicing lecturers. The aim of Alte University's undergraduate program in International Relations is to provide the student with a broad knowledge of the major areas of international relations and global politics,

develop the necessary skills to study current issues, and solve professional problems in global politics.

The aim of the Alte University Bachelor of Journalism program is to provide the student with a broad knowledge of the essence of journalism, basic principles of media, and standards of professional ethics, develop skills in information retrieval and analysis, objective and impartial evaluation, critical thinking, research, and effective communication.

The aim of the bachelor's program in psychology is to develop the student's skills necessary for the effective application of the knowledge gained in the field of psychology in practical activities and other skills necessary for activities in the specialty.

#### **Bachelor's programs at the School of Humanities and Social Sciences offer:**

- Improvements to the English language component;
- Participation in scientific research;
- Workshops, thematic seminars, meetings with invited guests, etc;
- Working in both private and public-sector organizations or agencies;

The aim of the Bachelor of Laws program is to provide the student with a broad knowledge of the basic features, theories, institutions, and norms of substantive and procedural law, as well as basic principles and values in public, criminal, private, and international law; and to develop all the skills needed to apply the acquired knowledge in practice, such as the ability to analyze, critically think, and uphold values.

#### **The law program offers students:**

- Participation in simulated processes;
- Participation in research projects;
- Internships at prestigious private and public institutions;
- Workshops, thematic seminars, meetings with invited guests etc;

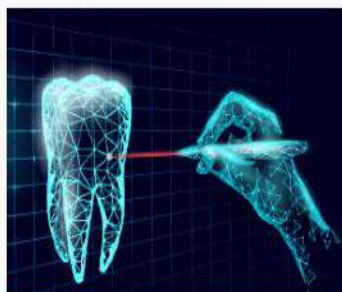

The University has all the conditions for students to study the profession which they choose, get a quality education, and be competitive in both the local and international employment markets.
